

HEC MEETING AGENDA
January 21, 2014
6:30 PM
Town Hall- Selectman's Room

Dick Desrosiers – Chairman
Tom Withka – Vice Chair
Dick Nichols – Selectman's Rep
Irina Calante- Recorder
Sunny Kravitz
Brian Betts

I would propose starting a project to install renewable energy sources that can reduce our energy costs. My suggestions will be to install solar panels that will supplement/replace the use of natural gas to heat the WWT plant buildings. In addition, we will look at the use of a photo-voltaic system to supplement the electric source of energy for the WWT blowers.

Mr. Clay Mitchell of Revolution Energy will join us at this meeting. Our objective will be to outline a process for development and execution of these projects.
